COMMUNITY MEETINGS

October
2017

YOUR CHANCE TO STAY UPDATED

Choose a date and location that suits you, from ten different sessions

We'll be out in your community soon, so come along to hear about our key focus areas and meet your new Councillors.

In this upcoming round of meetings, we'll cover our strategies for the year ahead, and our plans that address the issues you've identified as priorities.

You'll also learn about the upcoming process for developing the Community Strategic Plan. A separate engagement schedule is currently being planned for this important roadmap that highlights community aspirations until 2030.

Help us spread the word! It's important for us to connect with all corners of our community, so why not encourage a family member, neighbour, workmate, a friend or a young person to attend with you?

As always, these sessions are designed to bring you along our journey, and to help us identify and discuss your areas of priority.

We look forward to seeing you at one of the ten sessions across the region (RSVP not required).
