COMMUNITY MEETINGS

April-May
2018

Come along to hear about our current focus areas

Choose a date and location that suits you, from ten different sessions

The spotlight remains firmly on delivering a quality customer experience across all our touchpoints, and integrating our customer service teams is an important step forward. Find out about changes to customer service, our call centre, and how we are working to improve access to information for our community.

Also on the agenda will be: the timeline for appointing a new General Manager; the potential office consolidation and relocation; improvements to our road network; and our delivery program and operational plan that sets out what we'll be doing to deliver positive outcomes across the region in the coming year.

As always, these sessions are tailored for your community and will include updates on local projects and issues.

Don't forget to help us reach more people by bringing a relative, a friend or a young person with you!

We look forward to seeing you at one of the ten sessions across the region (RSVP not required).
