Register: For the above two tenders via our e-tendering web portal at www.tenderlink.com/midcoast to download the tender documents at no charge.

Markets policy

Following the adoption of our new Markets Policy in March, all market organisers across the region will need to apply to operate both new and existing markets.

We're implementing a staged transition to the new policy beginning with Gloucester.

For the first time, the Gloucester Farmers Market, which is currently coordinated by Council staff, will be looking for new organisers.

This will provide a great opportunity for someone to take on a well-established, historically successful market operation.

For more information about the new policy visit www.midcoast.nsw.gov.au/Council/Policies-Library/Markets-Policy

The application round to operate or coordinate markets in Gloucester, will be open until Friday 28 June.

The process includes an online form to be completed, as well as a set of three documents applicants need to produce to accompany the application.

Application forms and guidelines can be found on our website www.midcoast.nsw.gov.au/marketapplication

On our roads and bridges

Have you travelled Market Street in Gloucester lately? We've recently undertaken rehabilitation works along the section between Queen and Denison Streets, with a temporary seal now in place. Finishing touches, including permanent seal and linemarking, will be completed when the weather is warmer. The outcome... a smoother, safer and longer-lasting road surface!

Before

Temporary seal in place

For full details and updates on maintenance and construction works on our roads and bridges, visit MyRoadInfo.com.au, or search works near you at www.midcoast.nsw.gov.au/roads.
