### Local Government Week

This week is Local Government Week, and a great time to highlight the hundreds of services you use every day in our local community – many you probably rarely think about, but you'd miss them if they weren't there.

From roads, cycleways, footpaths and bridges to stormwater drainage, drinking water and sewer services. We maintain pools, parks, playgrounds, sporting fields and cemeteries, and provide cultural and community services including libraries, events, halls, ageing and disability services and more. Our diverse range of services covers your kerbside bin collection, vibrancy in our towns and villages, environmental protection, and planning controls for appropriate development.

Next time you head out for a walk, think about the services that make it more enjoyable – footpaths, street crossings, walking trails, dog parks (and even special bags for your furry friend's business). These are just some of the ways we're part of your every day. Visit our website to find out more about our services, you may be surprised!
