- Wingham CBD beautification project
- Planning Proposal - Lake Street Forster

Visit the Have Your Say page on our website for further info.

School holiday fun at the library

The Summer Holiday Program is underway across all library locations and is jam-packed with fun for kids of all ages.

From movie screenings, science exploration, kids bingo, bee hotel and Bunnings workshops, as well as arts and craft, everyone is excited to be able to welcome kids back into the libraries again for our school holiday program.

All events are COVID safe with full supervision and social distancing rules will apply, with parents and carers asked to follow directions from staff at each event.

All event information can be found on the libraries website www.midcoastlibraries.com.au

If you're interested in signing your child/children up for an event, we'd suggest you get in quickly as spaces are limited and bookings are essential.

Intended pesticide application

We have instructed Local Pest Experts to carry out pesticide applications in the Gloucester region, which are scheduled to be carried out during February and March 2021.

Pesticides are being used for spiders, rodents and cockroaches. Pesticide products will be applied to Council structures including public buildings.

Pesticides used will be selected from: Biflex Aquamax insecticide, Synergy Pro ant bait, Starrdust Pro, Maxforce Gold Gel, Enviromax Deltamethrin, Temprid 75, Termidor.

Residents (including pets) are advised not to enter the premises through any treated areas until the pesticides used have dried, or any special instructions advised on the notice erected on the day(s) of treatment.

For any further information please contact Council's Salesyards Officer & Trades Team Leader - West, Bruce Sun on 6538 5250.

Take care on our roads

Heavy rainfall in many parts of the region over the past 4 weeks has taken a significant toll on our roads and bridges. While our crews continue to repair damage and address potholes in some of our hardest-hit areas, it is important that motorists remain alert to hazards on our roads, drive to the conditions, and slow down.

When approaching river and creek crossings, please be aware that water levels in upper reaches of the Manning River remain high, and it can take days for floodwaters to move downstream. Watch for rising levels and never attempt to drive through floodwater.

To help us prioritise repairs on our roads and divert crews accordingly, please report damage by using the Report and Request form on our website: www.midcoast.nsw.gov.au/report or call 7955 7777.

Get your weekly news update

Stay up-to-date on what everyone's talking about by registering for our weekly update. Delivered directly to your in-box, our weekly "News Wrap" email gives you a snapshot of our latest projects and initiatives, in less than 5 minutes. Along with news about roads, rates and rubbish, find out about our environment, local arts and culture, playgrounds and sports grounds, projects that are open for feedback, and everything in between.
